# AUSTRALIAN TAXATION OFFICE

## Section 1: Agency overview and resources

### 1.1 STRATEGIC DIRECTION

The role of the Australian Taxation Office (ATO) is to achieve confidence in the administration of Australia's taxation and superannuation systems.

The taxation and superannuation systems are part of Australia's social and economic infrastructure. A major part of the ATO's administration of these systems is emphasising to the community the importance of willing and proper participation, in underpinning nation building.

The ATO's Strategic Statement 2010-15 strengthens this view by outlining a strategic vision for the taxation and superannuation systems. The vision aspires for Australians to value their taxation and superannuation systems as community assets, where willing participation is recognised as good citizenship.

The journey towards achievement of the Strategic Statement is guided by five strategic themes that intersect all levels in the ATO's vision and daily activities. The strategic themes are:

- Encourage: People support and understand the benefits of participation – they are engaged and willingly participate;
- Support: People are helped and assisted to understand their rights and responsibilities and are able to fulfil their obligations easily at minimal cost;
- Protect: Protecting people and the community by deterring, detecting and dealing with those who have not complied;
- Enhance: The ATO is passionate about improving its capabilities to be more innovative, agile and responsive to challenges and opportunities; and
- Champion: The ATO champions interests of both individual taxpayers and the community, advising government on ways to improve the operation of Australia's taxation and superannuation systems.

These themes are supported by the ATO's corporate values of being fair and professional, applying the rule of law, supporting people who want to do the right thing and being fair but firm with those that don't, being consultative, collaborative

and willing to co-design, being open and accountable and being responsive to challenges and opportunities.

Having just successfully implemented one of the most significant IT change programs in its history, the ATO is looking to optimise its new platforms by re-engineering business processes to encourage and support the community to willingly participate in Australia's taxation and superannuation systems.

There will need to be sustained focus in helping those recovering as a result of natural disasters. The ATO's help and assistance program of work will support this cause while remaining vigilant against those who seek an unfair advantage.

## 1.4 CHANGES TO THE PROGRAM STRUCTURE

The ATO has revised its program structure since the 2010-11 Budget. The Australian Business Register (ABR) and the Australian Valuation Office (AVO) (previously part of Program 1.1) are now separate programs 1.3 and 1.4 respectively.

As a result of this there have also been some minor changes to other program numbers, which are shown as part of Table 2.1.

## Section 2: Outcomes and planned performance

### 2.1 OUTCOMES AND PERFORMANCE INFORMATION

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government agencies achieve the intended results of their outcome statements. Agencies are required to identify the programs which contribute to Government outcomes over the budget and forward years.

The ATO's outcome is described below specifying the strategy, programs, objectives, deliverables and key performance indicators used to assess and monitor the performance of ATO.

**Outcome 1: Confidence in the administration of aspects of Australia's taxation and superannuation systems through helping people understand their rights and obligations, improving ease of compliance and access to benefits, and managing non-compliance with the law**

#### Outcome 1 strategy

The ATO seeks to deliver this outcome by:

- encouraging community participation in Australia's taxation and superannuation systems;
- supporting people willing to participate and making it as easy as possible for them to fulfil their responsibilities at minimum cost; and
- protecting people by dealing with those not willing to comply.

The ATO does this both as a single agency, as well as through managing a number of whole-of-government initiatives that deliver a range of services. The ATO also provides support to the Tax Practitioners Board, the ABR and the AVO.

The ATO has five broad indicators of effectiveness. These help to measure performance and how effective the agency is in delivering a high level of service to the government and the community. They are:

- Deliver aspects of taxation and superannuation systems for government and the community.
- Maintain community confidence and engagement.

- Help people understand their rights and obligations.
- Improve ease of compliance and access to benefits.
- Manage non-compliance with the law.

The ATO publishes a range of governance publications including the Strategic Statement, Corporate Plan and Compliance Program which outline the ATO's strategic direction and annual commitments to the community. The ATO's Annual Report assesses the achievements of the agency against these commitments.

The ATO also administers a range of subsidies and benefits, including fuel tax credits, research and development tax offsets, and superannuation incentives. These initiatives or schemes involve eligibility rules and conditions set out in legislation. Several of these administered programs deliver other government agencies' outcomes, with the ATO acting as a service delivery agency.

While the benefits delivered through these administered programs are funded through special appropriations the cost of the work and systems required to deliver the benefits is included in the ATO's departmental funding under Program 1 and is not specifically or separately identified.

## Contributions to Outcome 1

### Program 1.1: Australian Taxation Office

#### Program 1.1 objective

The ATO is the Government's principal revenue collection agency, administering Australia's taxation system, regulating aspects of the superannuation system, and supporting delivery of government benefits to the community.

The objective of the ATO is to administer aspects of Australia's taxation and superannuation systems fairly by helping people do the right thing, by making it as easy as possible for taxpayers to comply, ensuring effective strategies are in place to deter, detect and deal with non-compliance, and developing and supporting the capability of its people and of others in the system.

**Program 1.17 deliverables**

Successful delivery is demonstrated by:

- the dollar value of payments processed; and
- the number of eligible individuals receiving payments.

**Program 1.17 key performance indicators**

The ATO's role in successfully delivering this program is demonstrated by payments being made in accordance with the law.

**Program 1.18: Interest on Overpayments and Early Payments of Tax**

**Program 1.18 objective**

Various laws provide for credit interest to be paid to taxpayers in certain circumstances on certain refunded amounts where the amounts are not refunded within a specified time.

There are three general categories under the *Taxation (Interest on Overpayments and Early Payments) Act 1983* which create credit interest entitlements for taxpayers in certain circumstances:

- interest on early payments of tax;
- interest on overpayments of tax; and
- delayed refund interest.

**Program 1.18 expenses**

There are no significant changes to estimates across the forward years.

### Program 1.18 deliverables

The ATO administers eligibility and payments under the *Taxation (Interest on Overpayments and Early Payments) Act 1983*. Successful delivery is demonstrated by:

- the dollar value of interest paid.

### Program 1.18 key performance indicators

The ATO's role in successfully delivering this program is demonstrated by interest entitlements being made in accordance with the law.

## Program 1.19: Bad and Doubtful Debts and Remissions

### Program 1.19 objective

Taxpayers are expected to pay their taxation debts as and when they fall due for payment. Where tax debts are not paid by the due date, the ATO has the responsibility of collecting the outstanding amount.

This program deals with both the tax debt and the additional charges for late payment (such as general interest charge) automatically imposed by legislation, that is unlikely to be recovered.

While the program is primarily concerned with assisting taxpayers to meet their payment and lodgment obligations, the provision for bad and doubtful debts and discretion allowed for remission of additional charges for late payment is an expense to the Australian Government.

### Program 1.19 expenses

The estimates show moderate growth across the forward years.

**Table 2.20: Program 1.19 expenses**

**Program 1.19 deliverables**

The ATO administers Bad and Doubtful Debts and Remissions based on legislation and ATO policy. Successful delivery is demonstrated by:

- the dollar value of provisions; and
- the dollar value of remissions.

**Program 1.19 key performance indicators**

The ATO's role in successfully delivering this program is demonstrated by determining bad and doubtful debts and remissions in accordance with ATO policy and legislation.

**Program 1.20: Other Administered**

**Program 1.20 objective**

Other Administered includes the Tax Bonus, Domestic Ethanol Assistance and Low Income Earner Contribution.

The Tax Bonus is part of the Australian Government's Nation Building Economic Stimulus Plan, which provides for targeted bonus payments to assist households and support economic growth. The Tax Bonus payment commenced from April 2009 and will continue until all eligible people have been paid.

The Domestic Ethanol Assistance scheme is to introduce an energy content-based fuel excise system in order to give the Australian ethanol industry adequate time to prepare for forthcoming changes. The amended arrangement will ensure that there is no sudden loss of the tax differential between domestic and imported ethanol.

The Low Income Earner Contribution is to provide a superannuation contributions tax rebate of up to \$500 annually for low income earners, with effect from the 2012-13 income year. This rebate will improve the fairness of superannuation taxation arrangements by effectively rebating most of the tax payable on concessional superannuation contributions made by or for low-income earners.

### Program 1.20 expenses

The Tax Bonus is a one-off payment. The program ceased in 2009-10 but payments will continue until all eligible people have been paid.

The estimate for Domestic Ethanol Assistance in 2011-12 has been reduced due to a transfer of budget to the Department of Resources, Energy and Tourism as the ATO will not commence administering this scheme until December 2011. After 2012-13 the estimates decrease over the forward years as the rate of the offsetting assistance payment to domestic ethanol producers is progressively reduced.

The estimates for the Low Income Earner Contribution are impacted by Budget measures. Refer to Table 1.2 and Budget Paper No. 2, *Budget Measures 2011-12* for further information.

### Program 1.20 deliverables

The ATO's role in delivery of the Tax Bonus involves automatically calculating eligibility and entitlement and sending payments of up to \$900 to those eligible taxpayers. Successful delivery is demonstrated by:

- the dollar value of tax bonus paid; and
- the number of claims.

The ATO will be responsible for administering the domestic ethanol assistance scheme and providing compliance assurance and support. Successful delivery will be demonstrated by:

- the dollar value of claims; and
- the number of claims.

For the Low Income Earner Contribution it is intended that the ATO will be responsible for determining eligibility, calculating the amount of entitlement to be paid and making the payment, and notifying individuals of their entitlement. Successful delivery will be demonstrated by:

- the number of individuals eligible for the contribution; and
- the value of contributions distributed.

**Program 1.20 key performance indicators**

The ATO's role in successfully delivering this program is demonstrated by payments being made in accordance with the law.

## Section 3: Explanatory tables and budgeted financial statements

Section 3 presents explanatory tables and budgeted financial statements which provide a comprehensive snapshot of agency finances for the budget year 2011-12. It explains how budget plans are incorporated into the financial statements and provides further details of the reconciliation between appropriations and program expenses, movements in administered funds, special accounts and government Indigenous expenditure.

### 3.1 EXPLANATORY TABLES

#### 3.1.1 Movement of administered funds between years

The ATO does not have any movement of administered funds.

#### 3.1.2 Special accounts

Special accounts provide a means to set aside and record amounts used for specified purposes. Special accounts can be created by a Finance Minister's Determination under the *Financial Management and Accountability Act 1997* or under separate enabling legislation. Table 3.1.2 shows the expected additions (receipts) and reductions (payments) for each account used by the ATO.

## 3.2 BUDGETED FINANCIAL STATEMENTS

### 3.2.1 Differences in agency resourcing and financial statements

The ATO does not have any differences between the resource information presented in the Budget Papers and Portfolio Budget Statements.

### 3.2.2 Analysis of budgeted financial statements

#### Budgeted departmental income statement

The ATO is planning a balanced budget in 2011-12 after income tax equivalents expense from the AVO.

This excludes the impact of Operation Sunlight changes to funding whereby depreciation and amortisation expenses are not funded by appropriation from 2010-11 onward.

The budgeted departmental income statement also reflects changes arising from Budget measures as outlined in Table 2.1.

#### Budgeted departmental balance sheet

The ATO's assets are predominantly non-financial assets. In 2011-12, the ATO is planning a significant capital works program which will focus on:

- the development or improvement of internally developed systems and software in support of the ATO's intention of making people's experience with the revenue systems easier, cheaper and more personalised, and improving the integrity and flexibility of the superannuation business systems; and
- refreshing a number of the ATO's property holdings which are subject to lease expiry.

The ATO's liabilities continue to be predominantly employee entitlements.

**Table 3.2.10: Schedule of administered capital budget**

The ATO does not have any administered capital.

**Table 3.2.11: Schedule of asset movements — Administered**

The ATO does not have any administered non-financial assets.

### **3.2.4 Notes to the financial statements**

#### **Basis of accounting**

The budgeted financial statements have been prepared on an accrual basis.

#### **Notes to the departmental statements**

The departmental financial statements included in Tables 3.2.1 to 3.2.6, have been prepared on the basis of Australian Accounting Standards and Department of Finance and Deregulation guidance for the preparation of financial statements.

The budget statements and estimated forward years have been prepared to reflect the following matters.

#### **Cost of administering goods and services tax**

Departmental statements include the estimated costs of administering the goods and services tax (GST) pursuant to the 'intergovernmental agreement on the reform of Commonwealth-State Financial Relations'. The GST revenue is collected on behalf of the States and Territories which agree to compensate the Australian Government for the agreed GST administration costs.

The recovery of GST administration costs are reported under the Treasury.

#### **Notes to the administered statements**

The administered financial statements included in Tables 3.2.7 to 3.2.9 have been prepared on the basis of Australian Accounting Standards and Department of Finance and Deregulation guidance for the preparation of financial statements.

The standards require that taxation revenues are recognised on an accrual basis when the following conditions apply:

- the taxpayer or the taxpayer group can be identified in a reliable manner;
- the amount of tax or other statutory charge is payable by the taxpayer or taxpayer group under legislative provisions; and
- the amount of the tax or statutory charge payable by the taxpayer or taxpayer group can be reliably measured, and it is probable that the amount will be collected.

The amount of taxation revenue recognised takes account of legislative steps, discretion to be exercised and any refunds and/or credit amendments to which the taxpayers may become entitled.

## **Recognition of taxation revenue**

Taxation revenue is recognised when the Government, through the application of legislation by the ATO and other relevant activities, gains control over the future economic benefits that flow from taxes and other statutory charges – the Economic Transaction Method (ETM). This methodology relies on the estimation of the probable flows of taxes from transactions which have occurred in the economy, but not yet reported, and are likely to be reported, to the ATO through an assessment or disclosure.

However in circumstances when there is an ‘inability to reliably measure tax revenues when the underlying transactions or events occur’, the standards permit an alternative approach – the Taxation Liability Method (TLM). Under this basis, taxation revenue is recognised at the earlier of when an assessment of a tax liability is made or payment is received by the ATO. This recognition policy means that taxation revenue is generally measured at a later time than would be the case if it were measured under the ETM method.

In accordance with the above revenue recognition approach, the ATO uses ETM as the basis for revenue recognition, except for income tax for individuals, companies and superannuation funds and superannuation surcharge which are recognised on a TLM basis.

## **Items recognised as reductions to taxation revenue**

The following items are recognised as reductions (increases) to taxation revenue and not as an expense:

- refunds of revenue; and
- increase (decrease) in movement of provision for credit amendments.
