Dear Mr President Dear Mr Speaker

I hereby submit Portfolio Additional Estimates Statements in support of the 2011-12 Additional Estimates for the Treasury portfolio.

These statements have been developed, and are submitted to the Parliament, as a statement on the additional funding requirements being sought for the portfolio.

I present these statements to provide accountability to the Parliament and, through it, the public.

Yours sincerely

USER GUIDE TO THE PORTFOLIO ADDITIONAL ESTIMATES STATEMENTS

USER GUIDE

The purpose of the Portfolio Additional Estimates Statements (PAES), like that of the Portfolio Budget Statements, is to inform Senators and Members of Parliament and the public of the proposed allocation of resources to government outcomes by agencies within the portfolio.

The focus of the PAES differs from the Portfolio Budget Statements in one important aspect. While the PAES include an Agency Resource Statement to inform Parliament of the revised estimate of the total resources available to an agency, the focus of the PAES is on explaining the changes in resourcing since the Budget. As such, the PAES provides information on new measures and their impact on the financial and non-financial planned performance of agencies.

The PAES facilitate understanding of the proposed appropriations in Appropriation Bills (No. 3 and No. 4) 2011-12. In this sense the PAES is declared by the Additional Estimates Appropriation Bills to be a 'relevant document' to the interpretation of the Bills according to section 15AB of the *Acts Interpretation Act 1901*.

Whereas the *Mid-Year Economic and Fiscal Outlook* 2011-12 is a mid-year budget report which provides updated information to allow the assessment of the Government's fiscal performance against its fiscal strategy, the PAES update the most recent budget appropriations for agencies within the portfolio.

DEPARTMENT OF THE TREASURY

Section 1: Agency overview and resources

1.1 STRATEGIC DIRECTION

There has been no significant change to the strategic direction of the Department of the Treasury (the Treasury) from that outlined in the *Portfolio Budget Statements* 2011-12 (pages 15-17).

As a result of Administrative Arrangements Orders of 14 December 2011, the housing supply policy function transferred from the Department of Sustainability, Environment, Water, Population and Communities to the Treasury.

The Treasury is seeking an additional \$4.2 million in departmental outputs through Appropriation Bill (No. 3) 2011-12. This relates to an additional \$2.7 million for the Clean Energy Finance Corporation and \$1.2 million for the Clean Energy Future – Supporting Energy Markets – Energy Security Fund measures as outlined in the *Mid-Year Economic and Fiscal Outlook 2011-12*, and an additional \$0.3 million for the Stronger Super – Superstream measure that was agreed after the 2011-12 Mid-Year Economic and Fiscal Outlook.

The Stronger Super – Superstream measure is designed to enhance the back office of the superannuation system and the make the process of everyday transactions easier, cheaper and faster.

The Treasury is also seeking an additional \$2.0 million in administered items through Appropriation Bill (No. 4) 2011-12. This relates to the carryover of funds unspent from 2010-11 for the Education Tax Refund information campaign.

1.2 AGENCY RESOURCE STATEMENT

3.1 EXPLANATORY TABLES

3.1.1 Estimates of special account flows

Special accounts provide a means to set aside and record amounts used for specific purposes. Table 3.1.1 shows the expected additions (receipts) and reductions (payments) for each account used by the Treasury.

3.2 BUDGETED FINANCIAL STATEMENTS

3.2.1 Analysis of budgeted financial statements

The Department of the Treasury is budgeting for a departmental breakeven operating result for 2011-12.

The Department of the Treasury has a sound financial position and currently has sufficient cash reserves to fund provisions and payables, and asset replacement, as they fall due.

Notes to the financial statements

The Treasury's budgeted statements are prepared on an accrual basis in accordance with:

- the Government's financial budgeting and reporting framework; and
- Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board.

Under the Government's accrual budgeting framework, and consistent with Australian Accounting Standards, transactions that departments control (departmental transactions) are separately budgeted for, and reported on, from transactions departments do not have control over (administered transactions). This ensures that departments are only held accountable for the transactions over which they have control.

Departmental assets, liabilities, revenues and expenses are controlled by the department. Departmental expenses include employee and supplier expenses and other administrative costs, which are incurred by the department in providing goods and services.

Administered items are revenues, expenses, assets or liabilities which are managed by the department on behalf of the Government according to set government directions. Administered expenses include subsidies, grants and personal benefit payments, and administered revenues include taxes, fines and excises.

AUSTRALIAN BUREAU OF STATISTICS

Section 1: Agency overview and resources

1.1 STRATEGIC DIRECTION

There has been no significant change to the strategic direction of the Australian Bureau of Statistics from that outlined in the *Portfolio Budget Statements* 2011-12 (pages 63-65).

The Australian Bureau of Statistics is seeking an additional \$2.8 million in departmental outputs through Appropriation Bill (No. 3) 2011-12 for the Clean Energy Future – Improving Energy Efficiency measure as outlined in the *Mid-Year Economic and Fiscal Outlook* 2011-12 (page 212).

1.2 AGENCY RESOURCE STATEMENT

Table 1.1 shows the total resources from all origins. The table summarises how resources will be applied by outcome and departmental classification.

3.1.1 Estimates of special account flows

There has been no change to special account flows that affect Appropriation Bills No. 3 and No. 4.

3.2 BUDGETED FINANCIAL STATEMENTS

3.2.1 Analysis of budgeted financial statements

The Australian Bureau of Statistics is budgeting for a departmental breakeven operating result for 2011-12 after adjusting for non-appropriated expenses of depreciation and amortisation.

The Australian Bureau of Statistics has a sound financial position and currently has sufficient cash reserves to fund provisions and payables, and asset replacement, as they fall due.

The actual 2010-11 operating deficit represents a technical accounting loss resulting from the change in accounting estimates for internally generated software.

Notes to the financial statements

The Australian Bureau of Statistics' budgeted statements are prepared on an accrual basis in accordance with:

- the Government's financial budgeting and reporting framework; and
- · Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board.

Departmental assets, liabilities, revenues and expenses are controlled by the department. Departmental expenses include employee and supplier expenses and other administrative costs, which are incurred by the department in providing goods and services.

AUSTRALIAN COMPETITION AND CONSUMER COMMISSION

Section 1: Agency overview and resources

1.1 STRATEGIC DIRECTION

There has been no significant change to the strategic direction of the Australian Competition and Consumer Commission from that outlined in the *Portfolio Budget Statements* 2011-12 (pages 83-84).

The Australian Competition and Consumer Commission is seeking an additional \$2.2 million in departmental outputs through Appropriation Bill (No. 3) 2011-12 for the Clean Energy Future – Compliance measure as outlined in the *Mid-Year Economic and Fiscal Outlook* 2011-12 (page 287).

1.2 AGENCY RESOURCE STATEMENT

Table 1.1 shows the total resources from all origins. The table summarises how resources will be applied by outcome and departmental classification.

3.1.1 Estimates of special account flows

There has been no change to special account flows that affect Appropriation Bills No. 3 and No. 4.

3.2 BUDGETED FINANCIAL STATEMENTS

3.2.1 Analysis of budgeted financial statements

The Australian Competition and Consumer Commission is budgeting for a departmental breakeven operating result for 2011-12 after adjusting for non-appropriated expenses of depreciation and amortisation.

The Australian Competition and Consumer Commission has a sound financial position and currently has sufficient cash reserves to fund provisions and payables, and asset replacement, as they fall due.

3.2.4 Notes to the financial statements

Accounting policy

The budgeted financial statements have been prepared on an accrual accounting basis having regard to statements of accounting concepts, and in accordance with:

- the Government's financial budgeting and reporting framework; and
- Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board.

Departmental and administered items

Agency assets, liabilities, revenues and expenses are those items that are controlled by the ACCC that are used by the ACCC in producing its program and include:

- computers, plant and equipment and building fitout used in providing goods and services;
- liabilities for employee entitlements;
- revenue from appropriations or independent sources in payment for the departmental program; and
- employee, supplier and depreciation expenses incurred in providing agency program.

Administered items are those items incurred in providing programs that are controlled by the Government and managed, or oversighted by the ACCC on behalf of the government. Administered revenues include fees and fines.

Departmental revenue

Revenue from government represents the purchase of outputs from the ACCC by the Government and is recognised to the extent that it has been received into the ACCC's bank account.

Revenue from other sources, representing sales from goods and services, is recognised at the time that it is imposed on customers.

Departmental expenses — employees

Payments and net increases in entitlements to employees for services rendered in the financial year.

Departmental expenses — suppliers

Payments to suppliers for goods and services used in providing agency programs.

Departmental expenses — depreciation and amortisation

Depreciable property, plant and equipment, buildings and intangible assets are written-off to their estimated residual values over their estimated useful life, using the straight-line calculation method.

Departmental assets — financial assets

The primary financial asset relates to receivables. Financial assets are used to fund the ACCC's capital program, employee entitlements, creditors and to provide working capital.

Departmental assets — non-financial assets

These items represent future benefits that the ACCC will consume in producing outputs. The reported value represents the purchase paid less depreciation incurred to date in using the asset.

Departmental liabilities — provisions and payables

Provision has been made for the ACCC's liability for employee entitlements arising from services rendered by employees. The liability includes unpaid annual leave and long service leave.

Provision has also been made for unpaid expenses as at balance date.

AUSTRALIAN TAXATION OFFICE

Section 1: Agency overview and resources

1.1 STRATEGIC DIRECTION

There has been no significant change to the strategic direction of the Australian Taxation Office (ATO) from that outlined in the *Portfolio Budget Statements* 2011-12 (pages 183-184).

The ATO is seeking an additional \$18 million in departmental outputs through Appropriation Bill (No. 3) 2011-12 for the Clean Energy Future – Putting a Price on Pollution – fuel tax credit reductions (\$2.2 million), Clean Energy Future – Putting a Price on Pollution – revenue from sale of carbon units (\$1.1 million) and Fringe benefits tax – reform of living-away-from-home allowances and benefits (\$0.5 million) measures, offset by the Personal income tax – 50 per cent discount for interest income – deferral (-\$2.1 million) and Personal income tax – standard deduction for work-related expenses and the cost of managing tax affairs – deferral (-\$1.9 million) measures as outlined in the *Mid-Year Economic and Fiscal Outlook* 2011-12, and for the Stronger Super – Superstream measure (\$18.3 million) that was agreed after the 2011-12 Mid-Year Economic and Fiscal Outlook

The ATO is also seeking an additional \$12.3 million as an equity injection through Appropriation Bill (No. 4) 2011-12 for the Stronger Super – Superstream measure.

The Stronger Super – Superstream measure is designed to enhance the back office of the superannuation system and make the process of everyday transactions easier, cheaper and faster.

3.2 BUDGETED FINANCIAL STATEMENTS

3.2.1 Analysis of budgeted financial statements

Budgeted departmental comprehensive income statement

The ATO is planning a balanced budget in 2011-12 after income tax equivalents expense from the Australian Valuation Office. This excludes the impact of appropriation funding for depreciation and amortisation expenses from 2010-11 onward under the Operation Sunlight changes to agency funding.

The budgeted departmental comprehensive income statement also reflects changes arising from Budget measures as outlined in Table 2.1

Budgeted departmental balance sheet

The ATO's assets are predominantly non-financial assets. In 2011-12, the ATO is pursuing a significant capital works program to focus on:

- developing or improving internally generated systems and software to support the ATO's intention to make people's experience with the revenue systems easier, cheaper and more personalised, and to improve the integrity and flexibility of the superannuation business systems; and
- building and fitting out several new offices.

The ATO's liabilities continue to be predominantly employee entitlements.

The departmental financial statements, included in Tables 3.2.1 to 3.2.6 have been prepared on the basis of Australian Accounting Standards and Department of Finance and Deregulation guidance for the preparation of financial statements.

Cost of administering the goods and services tax

Departmental statements include the estimated costs of administering the goods and services tax (GST) under the 'intergovernmental agreement on the reform of Commonwealth-State Financial Relations'. The GST revenue is collected on behalf of the States and Territories which agree to compensate the Australian Government for the agreed GST administration costs. The recovered GST administration costs are reported under the Treasury Portfolio.

Administered

The administered financial statements at Tables 3.2.7 to 3.2.9 have been prepared on the basis of Australian Accounting Standards and Department of Finance and Deregulation guidance for the preparation of financial statements.

The standards require that taxation revenues are recognised on an accrual basis when the following conditions apply:

- the taxpayer or the taxpayer group can be identified in a reliable manner;
- the amount of tax or other statutory charge is payable by the taxpayer or taxpayer group under legislative provisions; and
- the amount of the tax or statutory charge payable by the taxpayer or taxpayer group can be reliably measured, and it is probable that the amount will be collected.

The amount of taxation revenue recognised takes account of legislative steps, discretion to be exercised and any refunds and/or credit amendments to which the taxpayers may become entitled.

Recognition of taxation revenue

Taxation revenue is recognised when the Government, through the application of legislation by the ATO and other relevant activities, gains control over the future economic benefits that flow from taxes and other statutory charges. This methodology, known as the Economic Transaction Method (ETM), relies on the estimation of the probable future flows of taxes from transactions that have occurred in the economy, but have not yet been reported, and are likely to be reported to the ATO through an assessment or disclosure.

In circumstances when there is an 'inability to measure tax revenues reliably when the underlying transactions or events occur', the accounting standards permit an alternative approach known as the Taxation Liability Method (TLM). Under this method, taxation revenue is recognised at the earlier of when a tax liability has been assessed, or, the ATO receives payment. This recognition policy means that taxation revenue is generally measured at a later time than it would have been had it been measured under the ETM method.

In accordance with the above revenue recognition approach, the ATO uses ETM as the basis for revenue recognition, except for income tax for individuals, companies and superannuation funds, and superannuation surcharge. Revenue from these sources is recognised on a TLM basis.

Items recognised as reductions to taxation revenue

The following items are recognised as reductions (increases) to taxation revenue and not as an expense:

- refunds of revenue; and
- increase (decrease) in movement of provision for credit amendments.

Section 1: Agency overview and resources

1.1 STRATEGIC DIRECTION

There has been no significant change to the strategic direction of the Productivity Commission from that outlined in the *Portfolio Budget Statements* 2011-12 (pages 325-326).

The Productivity Commission is seeking an additional \$3.9 million in departmental outputs through Appropriation Bill (No. 3) 2011-12 for the Clean Energy Future – Governance – Productivity Commission Reviews measure as outlined in the *Mid-Year Economic and Fiscal Outlook* 2011-12 (page 288).

1.2 AGENCY RESOURCE STATEMENT

Table 1.1 shows the total resources from all origins. The table summarises how resources will be applied by outcome and departmental classification.

3.2 BUDGETED FINANCIAL STATEMENTS

3.2.1 Analysis of budgeted financial statements

The Productivity Commission is budgeting for a departmental breakeven operating result for 2011-12 after adjusting for non-appropriated expenses of depreciation and amortisation.

The Productivity Commission has a sound financial position and currently has sufficient cash reserves to fund provisions and payables, and asset replacement, as they fall due.

Notes to the financial statements

The Productivity Commission's budgeted statements are prepared on an accrual basis in accordance with:

- the Government's financial budgeting and reporting framework; and
- Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board.

Departmental assets, liabilities, revenues and expenses are controlled by the department. Departmental expenses include employee and supplier expenses and other administrative costs, which are incurred by the department in providing goods and services.
