**Submission text**

*Please don't change the school kids bonus, low income or income support .....I know there are a lot of single parents who rely on this and to change it will severely change for the worse the quality of their children's lives...this is an irresponsible way to save a few dollars...especially when there are so many other ways to save money, from people who are making huge profits...why take from the poor? Please don't do it.*

*Thank you*

*Samantha Fernandez*
