

Toomarooma Kunama Namadgi Indigenous Corporation, Tumberumba.

25/10 18

Modernising Business Register Directors Identification Number Legislation.

We wish to make a comment in regards to the proposed changes to the above Legislation.

From a perspective of a small Indigenous Corporation we have found the process of contributing any valuable comment beyond our logistical capabilities. Our Directors are all voluntary, and most would not have the electronic capability to view, let alone comment on the large documents supplied. The process of comment is onerous because of the huge bulk of very technical data to absorb.

We wish to register our disappointment in not being able to contribute because of the above comments.

Regards Rhonda Casey, Chairperson
