

Regional Banking Taskforce

To the Secretariat

I request you support Australia Post Bank Option. To provide an Australian Owned Banking System. Aus Post has proven it can provide this service.

Rural Towns deserve a face to face Bank on many levels.

- 1 Intellectual Disability Customers can not do Internet Banking.
- 2 Australian's deserve to have an Australian Owned and Operated Bank without Fractional Finance.
3. Rural towns need face to face services such as an Australian Owned Service, who have supported them on regular transactions on behalf of the Big Corporation Banks.
4. Australia Post deserves this on behalf of the owners and staff providing Bank supports face to face to Rural customers, who may travel hundreds of kms to travel to a Corporation Bank Institution.
5. Rural people require face to face services to have that social impact, that is required for normal Human Interaction and Mental Health.

Thank you.
