

Submission to the Regional Banking Taskforce

Submission.

I wish to submit a request and express my feelings 're the closure of banks affecting small towns. I ask the Regional Banking Taskforce to seriously consider the process of establishing a banking service through Post Offices in NSW and further that would allow commercial transactions to occur. At present there are many small town that have lost their banks and now have to travel to the next town to physically deposit takings and supply themselves with cash needed in their businesses. This severely impacts on the business in staff time, travel costs and flexibility. A fully established bank through the local Post Office would help the economies of small towns.
